

1794 Worthington Day Book
INDEX (items purchased) & (items bartered)

PART 1 - INTRODUCTION

How this index works:

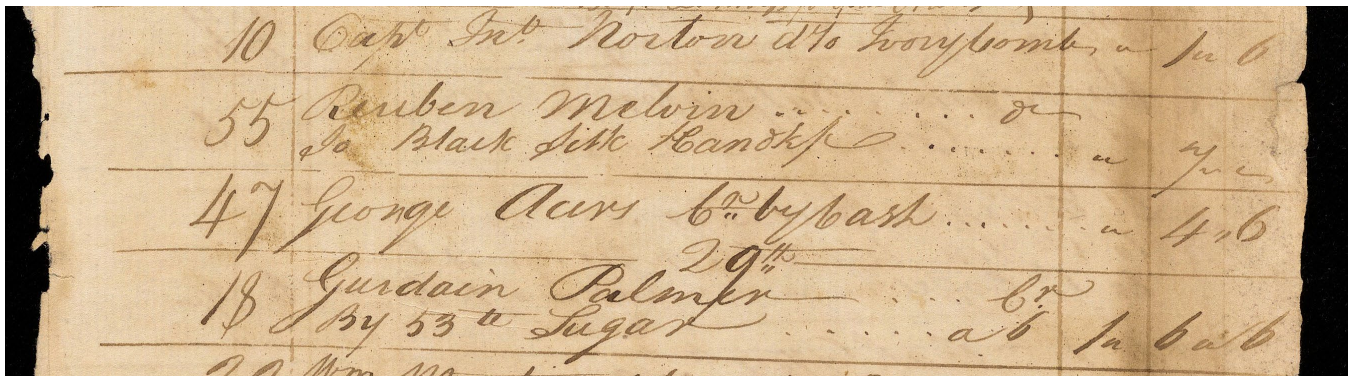

**Name of Customer (with variant spellings) (Town, if other than Worthington) [Number in Main Ledger], the Day Book pdf page number (date of purchase)
(items purchased) (items bartered)**

Examples:

The entry for

Acers, George [47]: 49 (04/26/1794)

can be found by opening the General Store Day Book pdf and entering 51 at the top (there are 126 total pages). The easiest approach to locating a name is to scan down the leftmost column and look for the **Ledger Number**, in this case [47]. The date for the entry is also provided because an individual page can have multiple dates. Acers was the last customer on April 26, 1794. The next day the store was open for business was April 29, 1794. Mr. Acers paid 4s/6p into his account on this date, and there are no additional mentions of him readable in the Day Book.

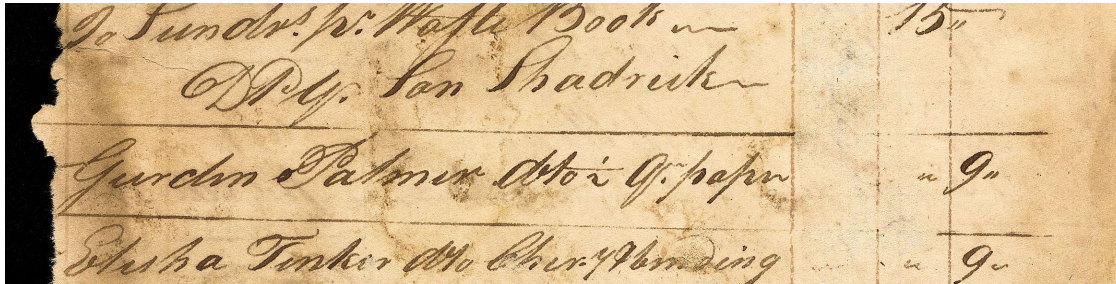

Gurdain Palmer, on the other hand, made multiple transactions. Here is his entry in the index.

Palmer, Gurdain (Gurden) [18]: 8 (01/09/1794), 37 (03/24/1794), 47 (04/21/1794), 49 (04/29/1794), 67 (06/28/1794)

Palmer shopped at the store on 5 different days. One of those entries can also be found on page 51 of the PDF file. Both the Ledger Number, ([18] in this case), and the date (April 29th), can help locate the name. On this date, Palmer provided 53 pounds of sugar to the store for which he received a credit of 1£/6s/6p

Palmer's purchase of a half-quire (around 7 sheets) of paper on 01/09/1794 is shown on page 8 of the PDF file, but on this page his Ledger Number is unreadable because of page damage. It is unreadable in the Names Index to indicate an **Unreadable Ledger Number** on that page.

Two more things to note, both shown in the entries for Rufus Knowles, below.

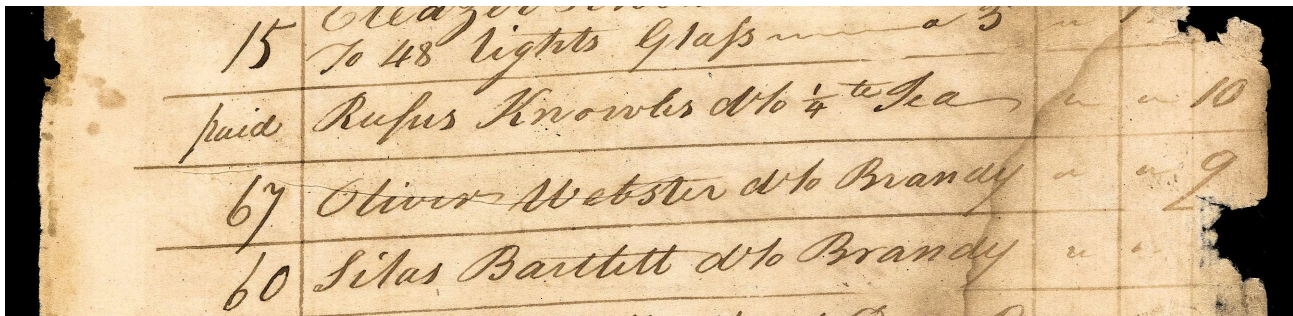

Knowles, Rufus [17]: 7 (01/11/1794)

Knowles, Rufus [32]: 26 (02/19/1794)

Knowles, Rufus [86]: 23 (02/11/1794-cash payment), 29 (02/28/1794), 40 (03/25/1794-cash payment), 45 (04/10/1794-cash payment), 48 (04/23/1794), 62 (06/18/1794), 65 (06/24/1794), 73 (07/09/1794), 96 (09/09/1794), 111 (11/01/1794), 127 (11/18/1794)

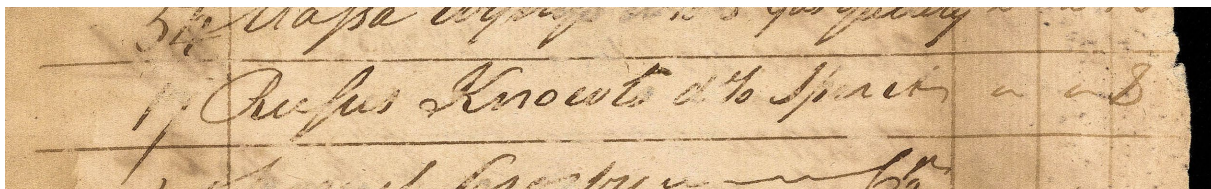

Although most people charged their purchases, on occasion some paid cash. Within the Worthington Day Book, cash payments are shown using the words “paid” or “cash” in the left-hand column where the Ledger Number usually is located.

As shown on Day Book pdf p 23.jpg, Rufus Knowles paid 10 shillings in cash when he purchased ¼ pound of tea on February 11, 1794. He also paid cash in entries shown on pp. 40 and 45.

Finally, several people have **more than one Ledger Number**. This might have several causes – possibly an entry error or running out of space on the initial page. Knowles is unique in having three different Ledger Numbers attached to his name.
