Patti

Patti is the only family member remaining in Green Bay where she resides with her husband Paul. Their daughter Allison lives in Milwaukee WI with her daughter Shea Catherine. Son Eric resides in Madison WI with his wife Liz and sons Grady and Levi. After leaving Worthington, Patti moved to Green Bay and accepted a position working in a bank. It was then she met her husband who was a banker. After 40 years of banking Paul recently retired as Bank President. Paul is now a consultant, primarily in the banking industry. While raising their two children, Patti was active in community organizations, especially those that benefited underprivileged children. Her natural leadership led her to serve on several Boards of Directors. Patti went on to follow her love of design and owned a successful home interior and gift gallery for many years.

Joe

Joe resides in Burlington. After his career in sales, Joe worked in the family business until health issues kept him from doing so. He continues to enjoy his love of music. He is always willing to engage in any political discussions and tries to keep up with his four adult daughters' family's activities. Joe tries to get back to Worthington whenever he can.

Frank Jr.

Frank lives in the Burlington area along with his wife Cathy.

They enjoy living on the lake, where Frank can often be seen taking off from his dock in his seaplane. Frank recently retired from his career in aviation, where he was a Captain and flew internationally for UPS. The last several years he enjoyed his chosen route of South America. His wife Cathy still enjoys her career as Captain for Delta, flying internationally. Not only is Frank passionate for flying professionally, but owns and restores small air craft for his personal enjoyment. A true highlight of Frank's career, came when he was honored by UPS, as one of 20 pilots who excelled in all aspects of his position.

Jim

Jim went the southern route after meeting a Southern Bell, Jill. They have lived in the Carolina's for years and I don't think have any plans of leaving soon. Following his graduation from Marquette University, Jim enjoyed a successful career in sales and to this day continues to do so. He and his wife Jill have raised two sons, Riley and Sullivan, and are just now getting use to the empty nest. And yes, he still has the nickname "Stoney". Growing up in Worthington was a great place to do so and
